

# Millenium Technologies (Private) Limited (Miltech)

## Defense Services Division

Millenium Technologies (Private) Limited (Miltech) was founded in early 2000, as a company of high credential and great strength that integrates Defense Technology and Industry with trade. It was founded to capitalize on the leads and definite potential of defense trade that were developing as a direct result of the Exhibition Marketing through the requirements generated by the Pakistan Armed Forces.

Miltech as a company - developed as a major channel and access to the domestic market for our International Partners. Miltech sets for itself the promotion of foreign products for import as its main orientation and has been consistently committed to exploring outlets for its represented products in the domestic market.

A project from the time of conception to becoming an operational induction into active service involves several painstaking processes. Milltech embarked on the compensation trade as practiced through arrangements between buyers and sellers. It has employed a thorough team of professionals and hired ex- servicemen as consultants who specialize in the trade of companies we represent and have in-depth knowledge of the services and future equipment needs as envisioned by the Armed Forces. Among our clientele are;

- Pakistan Air Force
- Pakistan Ordnance Factories
- Pakistan Civil Aviation Authority

Our dedicated and hard-working staff is the power source for us to accomplish the targets set. We treasure of whom we represent today and carry on to achieve better results and to contribute more deals for our partners in the Pakistani market.

Presently we are representing the interests of the following reputed International Companies in the domestic market:

- OMNIPOL
- E R A a.s.
- Eldis Pardubice
- R - Sys
- Grand Power
- MicroStep-MIS
